

HEALQU™

The best in advanced wound care

Foam Dressing with non-woven adhesive border

A complete, advanced wound care solution

The latex-free, foam pad quickly absorbs exudates and the vapor permeable layers help create the ideal wound healing environment. The water-proof outer coating protects the wound from external bacteria.

Usage

Wounds appropriately treated with the dressing are light to moderate exuding including but not limited to:

- first and second-degree burns
- post-operative surgical wounds
- partial and full-thickness wounds
- lacerations and abrasions
- pressure injuries
- leg ulcers,
- donor sites
- skin tears
