The best in advanced wound care

## Non-Adhesive Waterproof Foam

### Versatile fluid management

This multi-purpose, vapor permeable dressing helps to create the ideal environment for wound healing. The waterproof outer layer helps keep the wound area isolated from external bacteria. The latex-free, highly absorbent foam material quickly draws exudate from the wound bed for a high degree of fluid management.

### Usage

For moderate to heavy exuding wounds including but not limited to:

- partial and full- thickness wounds
- first and second-degree burns
- lacerations and abrasions
- pressure injuries
- leg ulcers
- donor sites
- skin tears
